Who we are

Defenders Coalition (The National Coalition of Human Rights Defenders–Kenya) is a national organization incorporated in the Republic of Kenya as a Trust. Its mission is to strengthen the capacity of human rights defenders (HRDs) to work effectively in the country and to reduce their vulnerability to the risk of persecution, through protection, capacity building, and advocacy for a favorable legal and policy environment. Established in 2007, NCHRD-K is the only national organization that works primarily for the protection of HRDs.

The Defenders Coalition’s strategic plan 2020 – 2025 outlines the vision, mission and strategies of realizing the same. The strategic plan is futuristic and encompasses alignment to global human rights instruments as it seeks to effectively reposition the Defenders Coalition in the rapidly changing environment especially in technology. The identity of the plan is to present HRDs with holistic approaches geared towards a safe and secure environment for all HRDs through an established rapid response mechanism, capacity building and knowledge management structures.

Background:

The Defenders Coalition is cognisant of the role that (W)HRDs play during elections period in Kenya as elsewhere globally. (W)HRDs are at the centre of democratic processes as they actively monitor the situation of human rights during the period leading up to elections, during elections and after elections. The role supersedes just elections monitoring. They also passionately work to protect and promote human rights for all, seek justice and other remedies for victims and demand accountability for perpetrators of violation within and without the elections period. If documentation of facts and information is not properly done, the victims may end up not receiving justice, ending up exposing their lives or that of the victims of the violations to unprecedented risks.

DEFENDERS COALITION

It is on this premise that the Defenders Coalition is seeking the services of a consultant to develop a standard training manual as well as standard data collection tools (for use within and without Defenders Coalition and among partners) and to enhance the capacity of (W)HRDs with skills in risk assessment and reporting as well as monitoring, documentation and reporting (MDR). The skills development training is intended to result in a pool of trainers of trainers from among the (W)HRDs who will continue strengthening the capacity of other (W)HRDs at the community level during and beyond elections period.

Scope of Work

Human Rights Defenders continue to work in an environment that is extremely dynamic. The risks associated with the work of promoting human rights is real but also the risk of exposure and severity differ, but increasingly women HRDs are prime targets. The Defenders Coalition addresses these issues by regularly enhancing the capacities of (W)HRDs to be able to do their work in a safe manner.

The manual must explore and be specific to WHRDs concerns and mitigation.

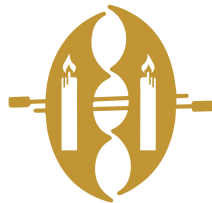

The consultant will also be tasked to compile specific reports on the situation of human rights from the 47 counties in the period August – December 2021. The information is domiciled at Defenders Coalition following ongoing election related monitoring of rights violations.
